

Save More Money With These Unique Wedding Venues

Finding great location for your wedding can be quite a feat. So many places are way above budget and cost and arm and a leg to rent for a few hours. Below are a few unique ideas to help you find cheaper venues.

A Friends' Home

Chances are you know someone with a beautiful home. If this is the case, you may already have a great place to have your wedding, you just have to ask. If you have a friend with an old historical home or a family member with a beautiful garden just ask to hold your wedding there. Your loved ones will be more than willing to help.

A Small Country Church

Many times couples go after big city cathedral type venues. This is a great idea if you have a big budget, but if you would like to save some money, yet have a beautiful location, find a small country church to have your wedding. These quaint churches are many times a historical structure so they are well maintained, yet much cheaper than larger, more extravagant big city churches.

Museums

Did you know that many museums have certain areas that are available for weddings? These areas are marked off and rented by the hour. Since many couples do not know this is an option, the museum rates are usually quite a bit cheaper than a well known wedding venue.

The Forest

For outdoorsy couples the forest is a very popular choice. If you know someone that owns the property this can save you a whole lot on expenses. A clearing in the middle of the woods will provide you a great setting for the exchanging of your wedding vows. Also with nature all around, you won't have to try too hard with the decorations.

Mountaintop

Why not gather your guests and your husband to be on a mountaintop. This is sure to make a lasting impression, it is unique, and will not be forgotten anytime soon. You can surround yourself with beautiful scenery and it is more affordable than you might think. Check with city hall if the land is owned by the city or with the land owner if it is privately owned property.
